Planet

Type:	Course
Location:	Web-based
Duration:	1 Days
Programme Area:	Environment, , Climate Change
Website:	http://www.unccelearn.org/
Price:	\$0.00
Event Focal Point Email:	unccelearn@unitar.org
Partnership:	UN CC:Learn Partnership, UNDP, Swedish Development Cooperation (SIDA)

BACKGROUND

IMPORTANT: Please register directly on the course website:

<http://unccelearn.org/>

Climate information and services (CIS) are defined as information and services that are derived from climate data and are used to inform decision-making. CIS can be provided in a variety of ways, including through government agencies, private sector companies, and non-governmental organizations (NGOs). CIS can be used for a wide range of purposes, including disaster risk reduction, agriculture, water management, and urban planning. CIS can be provided in a variety of ways, including through government agencies, private sector companies, and non-governmental organizations (NGOs). CIS can be used for a wide range of purposes, including disaster risk reduction, agriculture, water management, and urban planning.

CIS can be used for a wide range of purposes, including disaster risk reduction, agriculture, water management, and urban planning. (Kit Nicholson)

LEARNING OBJECTIVES

After completing this e-tutorial, participants will be able to:

- Define climate information and services.
- Identify the uses of climate information and services in development planning and policy.
- Discuss the role of legislation in strengthening climate information and services.
- Provide examples of instruments available to governments for mainstreaming climate information and services.

CONTENT AND STRUCTURE

Climate information and services (CIS) are defined as information and services that are derived from climate data and are used to inform decision-making. CIS can be provided in a variety of ways, including through government agencies, private sector companies, and non-governmental organizations (NGOs). CIS can be used for a wide range of purposes, including disaster risk reduction, agriculture, water management, and urban planning. CIS can be provided in a variety of ways, including through government agencies, private sector companies, and non-governmental organizations (NGOs). CIS can be used for a wide range of purposes, including disaster risk reduction, agriculture, water management, and urban planning.

UN CC:Learn is a partnership of more than 30 multilateral organizations supporting countries to design and implement systematic, recurrent and results-oriented climate change learning. At the global level, the partnership supports knowledge-sharing, promotes the development of common climate change learning materials, and coordinates learning interventions through a collaboration of UN agencies and other partners. At the national level, UN CC:Learn supports countries in developing and implementing national climate change learning strategies. Through its engagement at the national and global levels, UN CC:Learn contributes to the implementation of Article 6 of the UNFCCC on training, education and public awareness-raising, and the 2012-2020 Doha Work Programme. Funding for UN CC:Learn is provided by the Swiss Government and UN partners. The Secretariat for UN CC:Learn is hosted by the UN Institute for Training and Research (UNITAR).

TARGETED AUDIENCE

UN CC:Learn is a partnership of more than 30 multilateral organizations supporting countries to design and implement systematic, recurrent and results-oriented climate change learning. At the global level, the partnership supports knowledge-sharing, promotes the development of common climate change learning materials, and coordinates learning interventions through a collaboration of UN agencies and other partners. At the national level, UN CC:Learn supports countries in developing and implementing national climate change learning strategies. Through its engagement at the national and global levels, UN CC:Learn contributes to the implementation of Article 6 of the UNFCCC on training, education and public awareness-raising, and the 2012-2020 Doha Work Programme. Funding for UN CC:Learn is provided by the Swiss Government and UN partners. The Secretariat for UN CC:Learn is hosted by the UN Institute for Training and Research (UNITAR).
