

COVID-19

People

Type:	Course
Location:	Web-based
Duration:	2 Weeks
Programme Area:	Decentralize Cooperation Programme
Website:	https://unitar.org/sustainable-development-goals/people/our-portfolio/road-safe...
Price:	\$0.00
Event Focal Point Email:	roadsafety@unitar.org
Partnership:	Special Traffic Options Program for Driving While Impaired (STOP DWI) of the State of New York, Erie County, Intoximeters Inc., Diageo

BACKGROUND

EN:

This online course developed with the support of Intoximeters Inc, Diageo and the Special Traffic Options Program for Driving While Impaired (STOP DWI) of the State of New York, Erie County aims to provide recommendations for proper use and maintenance of breath alcohol testing instruments considering the threat of the COVID-19, which is reported to be a viral disease that is often passed through airborne droplets of fluid from an infected person to another. How to use, clean and disinfect breath alcohol testing instruments becomes crucial.

LEARNING OBJECTIVES

By the end of this course, participants will be able to:

- Identify the importance of proper use and maintenance of breath alcohol testing instruments, including the importance of proper use, cleaning, and disinfection of the instrument.
- Recognize measures to minimize the possibility that a subject can contract a disease in the process of providing a breath sample to a breath alcohol testing instrument.

EN:

At the end of the course, participants will be able to:

- Recognize measures to minimize the possibility that a subject can contract a disease in the process of providing a breath sample to a breath alcohol testing instrument
- Apply good practices and precautions to reduce the likelihood that the operator or other handler of the instrument is exposed to an infectious disease from the subject directly, the mouthpiece, or from the instrument

CONTENT AND STRUCTURE

- Course structure: 5 sections:
1. Steps to reduce transmission during a breath alcohol test
 2. The difference between cleaning and disinfecting
 3. The risk of breath alcohol instrument contamination
 4. User's role
 5. COVID-19: Good practices and precautions

EN:

The course is comprised of 5 sections:

1. Steps to reduce transmission during a breath alcohol test
2. The difference between cleaning and disinfecting
3. The risk of breath alcohol instrument contamination
4. User's role
5. COVID-19: Good practices and precautions

METHODOLOGY

The course includes an interactive lesson accompanied by learning materials and readings, as well as a detailed guide available for download.
